The following students are running for SGA senate. Several other candidates may be late entries to appear on the ballot for the vote on Friday.

Name: Kurt Rosenberger  
Year: Sophomore  
Major: Undeclared  
Platform: I will do my best to better integrate EMU’s student body’s opinion with the administration’s on issues of policy and student life.

Name: Emily Benner  
Year: First-year  
Major: Undeclared  
Platform: As a member of SGA, I would hope to realistically represent the student body instead of solely promoting my own agenda. I’m excited about fundraising, and I would love to help promote environmental awareness and make it easier for all of us to be environmentally conscientious. I also enjoy meeting new people and bringing up issues for discussion.

Name: Michael Kniss  
Year: Sophomore  
Major: History  
Platform: I will work to make SGA a strong student organization that has the ability to speak for the students in response to the administration. SGA must have the ability to confront controversial issues and make a stand for the students. I will stand firm with students who wish to see the end of faculty dismissals based on dissenting views.

Name: Michael J. Sharp  
Year: Junior  
Major: History  
Platform: SGA can bridge the gap, stay the course, empower the students, but you’ve heard that all before. I plan to represent democratic socialist ideas and ideals as they pertain to life on and off campus at EMU.

Name: Marlin Miller  
Year: First-year  
Major: Env. Science  
Platform: To listen to the student’s wisdom. I want to actually work for the students and not sit back. “Action with wisdom.”

The Weather Vane has unfortunately misrepresented the official reason for Dr. Arbaugh’s departure. Arbaugh will be leaving EMU after the fall semester when his current contract expires. According to an e-mail from Interim President Beryl Brubaker, there was a “misunderstanding of EMU expectations and lack of disclosure of important aspects relevant to the CLC.”
