• Chapel: Student Reflections on Service, Lehman, 10 a.m.

Wednesday, October 15
• Chapel: Reflections on Service Beyond, Lehman, 10 a.m.

Letter to the Editors:

Bad “Star Trek?”
He thinks not ...

There are a few things that have disturbed me about this paper this year, and others that have since my freshman year.

First, the “On the Sidewalk.” How can you justify this misnomer? Few if anyone is ever actually outside, let alone on a sidewalk. And where’s the diversity in those questioned? Four sophomores and a senior (Oct. 4), three first-years and two sophomores (Sept. 18), and so on, is simply not acceptable.

But I move on. Now, about the illustration for the “Foot in Mouth.” It’s a freakin’ mouth on the Achilles tendon of a dismembered foot. Talk about false advertising. Oh, and by the way, I’ve had my foot in my mouth, both literally and figuratively, and it is not all that bad.

Finally, the “Hugs and Slugs.” Is it just me, or is the slug smoking? I cannot tolerate the promotion of smoking, be it in humans or otherwise. And about the hugs, isn’t that just a picture of slugs mating? Granted, this explains the smoking, but do we really need this sort of pornography in our newspaper?

I really have a problem with some of the slugs in the Oct. 4 issue. The hungry slug to the empty snack machines. I realize that a student needs a sugar fix. However, if you can even afford to buy one of these items, it is obvious that it is time to raise tuition again.

As for the slug given to the clocks around campus. While I agree that this is a problem, how dare you imply that there could ever be a bad episode of “Star Trek.”

Drew J. Roynon, fifth-year
